

2nd Structural Biology Workshop: Signal Transduction

CIC bioGUNE, 29-30 May 2008

Thursday May 29th

14:45 Welcome

Dr. Mikel Valle
CIC bioGUNE

15:00 Session 1

Dr. Liang Tong
"Structural studies of fatty acid metabolism and relevance to the obesity epidemic"

16:00 Session 2

Dr. Pau Bernadó
"Structure of unstructured proteins"

17:30 End

Friday May 30th

09:30 Session 1

Dr. Francisco Blanco
"Molecular basis of histone H3K4Me3 recognition by ING4"

10:30 Session 2

Dr. Oscar Llorca
"3D structure and function of macromolecular complexes assembled during signalling and repair of DNA damage"

11:30 Coffee break

12:00 Session 3

Dr. Jerónimo Bravo
"Ligand induced SH3 Domain Oligomerisation"

13:00 Session 4

Dr. Aitor Hierro
"Recycling through the retromer complex"

14:00 Closing remarks
