

3rd Glycobasque Meeting

CIC bioGUNE- Edificio 800 (Atrio) March 12-13, 2020

THURSDAY 12

- 9:00-9:30 **OPENING**
- 9:30-10:00 **Jim Paulson** "Siglecs as checkpoints in regulation of immune responses"
- 10:00-10:45 ORAL COMMUNICATIONS
- 10:45-11:15 **Nathalie Juge** "Sialic acid metabolism in gut bacteria"

11:15-11:45 COFFEE & POSTERS

- 11:45-12:15 **Carlo Unverzagt** "Synthesis and Applications of N-Glycans and N- Glycoproteins"
- 12:15-12:45 ORAL COMMUNICATIONS
- 12:45-13:15 **Thomas Peters** "Some (Viruses) Like it sweet"

13:15-14:30 LUNCH

- 14:30-15:00 **Frank Fieschi** "C-type lectins as targets or weapons: different stories of molecular design"
- 15:00-16:30 ORAL COMMUNICATIONS

16:15-16:45 COFFEE & POSTERS

- 16:30-17:45 ORAL COMMUNICATIONS
- 17:45-18:15 **Niels Reichardt** "Synthesis and Applications of Parasite Glycans"

FRIDAY 13

- 09:30-10:00 **Peter Seeberger** "Automated Polysaccharide Synthesis and Single Molecule Imaging"
- 10:00-10:30 ORAL COMMUNICATIONS
- 10:30-11:00 **Anna Bernardi** "Glycomimetics - by screening and by design"
- 11:00-11:30 ORAL COMMUNICATIONS

11:30-12:00 COFFEE & POSTERS

- 12:00-12:30 **Derek Tan** "Diversity and Design New Chemical Probes for Biology and Medicine"
- 12:30-13:30 ORAL COMMUNICATIONS
- 13:30-14:00 **Christian Griesinger** "NMR spectroscopy and beyond to study immunity and neurodegeneration"
- 14:00: **FAREWELL & LUNCH**
