

## Workshop on **Cell Population Dynamics** - laboratory analysis and mathematical modelling -

### Aims:

The main idea of the workshop is to bring together some experimental and mathematical biologists working in the field of cell population dynamics. In particular, we would like to strengthen existing links and stimulate new interdisciplinary collaboration by exposing touch - points of the research lines. Everybody interested in the subject is cordially invited to attend this workshop and to participate in the discussion.

### Speakers:

María del Mar VIVANCO (CIC Biogune, Bilbao)  
Robert KYPTA (CIC Biogune, Bilbao)  
Anna MARCINIAK-CZUCHRA (University of Heidelberg, Germany)  
Tomás ALARCÓN (BCAM, Bilbao)  
Philipp GETTO (BCAM, Bilbao)

**December 4th, 2009**

: **BCAM** (Basque Center For Applied Mathematics)

[www.bcamath.org](http://www.bcamath.org)

Bizkaia Technology Park, Building 500, E-48160 Derio (Spain)

[http://www.bcamath.org/public\\_contact/ctrl\\_contact.php?accion=m](http://www.bcamath.org/public_contact/ctrl_contact.php?accion=m)

### Program:

**10:00 -14:00** presentations (30+10 mins each),  
lunch and discussion afterwards

### Scientific organization:

Philipp Getto [getto@bcamath.org](mailto:getto@bcamath.org) and María del Mar Vivanco [mdmvivanco@cicbiogune.es](mailto:mdmvivanco@cicbiogune.es)

### General organization:

Magaly Roldán Plumey [roldan@bcamath.org](mailto:roldan@bcamath.org)

**PLEASE CONFIRM ATTENDANCE BY SENDING AN E-MAIL TO [info@bcamath.org](mailto:info@bcamath.org)**
