

Predocctoral Researcher 3 year (Bilbao, Spain)

We are looking for a highly motivated student with a Master Degree in Sciences and willing to enroll in a PhD program, under the joint supervision of Dr J. Ruiz-Cabello at CIC biomaGUNE and Dr E. Berra at CIC bioGUNE.

The interdisciplinary project combines nanotechnology and molecular imaging (Jesús Ruiz-Cabello's lab) and molecular and cell biology approaches (Edurne Berra's lab) to investigate Biomarkers of early pulmonary hypertension.

How to apply: Applicants should send a statement of research interests and a CV, including global marks and the name and address of at least two referees to rrhh@cicbiogune.es indicating reference 42041 in the subject.

The contract may start immediately but the position will be open until filled.
